Annual Scientific Conference

# UPPER EGYPT No CANCER

*April*

24th- 25th, 2025

Sonesta St George Hotel

LUXOR  
EGYPT

# UPPER EGYPT: No CANCER

## Welcome Message

**Dr. Emad Shash**  
*Conference President*

On behalf of the conference's organizing committee and executive board, I am pleased to welcome our esteemed speakers and delegates to the **"4th SOH Annual Scientific Conference"** held at the historic city of Luxor from April 24th - 25th 2025, at Sonesta St. George Hotel.

The conference will focus on SOH experience in battling cancer in Upper Egypt, for an era of **"Upper Egypt with NO Cancer"**. This Year's theme is "Real world data generation, hand in hand with health economics".

The conference is organized in collaboration with the **Arab Medical Association Against Cancer (AMAAC)**, **Egyptian Cancer Society (ECS)**, **Egyptian Foundation for Medical Sciences (EFMS)**, the **Presidential Initiative for Women's Health**, the **Presidential Initiative for Early Detection of Tumors** and **C.A.I.R.O Journal Club (CJC)**. The conference will bring together expert international oncology professors and consultants from all over the world.

The state-of-the art presentations and knowledge sessions will provide major updates to the latest diagnostic and treatment techniques that were fostered by experts in oncology and advanced cancer care - both at Shefaa Al Orman Hospital, around the region and beyond.

Numerous keynote and scientific presentations as well as poster exhibition will be presented during this 2-day conference; highlighting some of the exciting developments in the fields of cancer etiology, screening & diagnosis, cancer imaging technologies, and treatment.

In addition to abstract presentations and lectures by world renowned speakers, we will be offering hands on workshops, interactive sessions, as well as several sessions dedicated to subspecialties like nurses and patients. The conferences' full program and workshops will be accredited by the American Association of Continuing Medical Education (AACME).

The backdrop of the beautiful and historic city of Luxor "The city of Hundred Gates" will add to the pleasure of the meeting and provide lasting memories beyond the science, as the city holds some of the most extraordinary artifacts and the most majestic temples all over the world.

Thank you for being with us and special thanks to our faculty members, panelists and sponsors for their valuable contribution to this conference!

I add my best wishes for a successful meeting, looking forward to welcoming you again in 2026.

Sincerely,

*Under The Auspices of Her Excellency*
